How Can we Help?

Search Engine Marketing

1

We place ads for your business among sponsored links in search engines. We work with your ad performance data to maximize the visibility of your ads.

Search Engine Optimization

2

We optimize your website to improve its position among search engine results. Your site's presence in the first few pages of search engines makes it easier for searchers to find you online.

Online Advertising

3

We design and place display and banner ads on various online portals. We also work with your ad performance data to maximize your visibility...

Our Technologies

1 **HTML/XHTML/CSS:** We have expertise in accessible, W3C standards compliant HTML/XHTML and CSS. We focus on liquid design to ensure compatibility with all browsers be they on PC's, Mac, Linux or handheld devices.

2 **JavaScript:** We always focus on accessible JavaScript for the best user experiences. We can build platform independent DHTML, as well as complex AJAX, Web2.0 systems.

3 **Flash:** Adobe Flash is our specialty. We have been heavily involved in the application and development of Flash since long time ago. Now onto Flash and Action Script, we are still at the forefront of Flash and programming..

4 **Photoshop:** We utilize the Adobe's infinitely powerful Adobe Photoshop CS4 and Illustrator CS4 for photo editing and vector graphic design.

5 **Dreamweaver:** We also utilize the Macromedia Dreamweaver, To give its clients the opportunity to take advantage of this innovative web editor, NTC Hosting has included FTP connection and full compatibility with the latest version

6 **PHP:** PHP is our server-side language of choice. Outstripping ASP for speed, reliability and compatibility PHP allows us to quickly and efficiently develop dynamic, content rich sites.

7 **SQL:** Databases run the internet these days, and SQL is the best. Whether utilized for a simple client database or providing complete content for a dynamically driven, content rich site, SQL always meets the challenge.
